

The Warehouse South City Closure

Dear Suppliers,

We recently shared a proposal with The Warehouse South City team to close the store in August this year. We received valuable and insightful feedback on this proposal, including the unique customer offering The Warehouse South City stores provide and the overall store performance and processes, and would like to thank the team for their engagement throughout this process.

When reviewing our store network, we consider performance along with a range of other factors, such as opportunities for future growth, lease conditions and proximity to other stores. After carefully reviewing the feedback received, we have made the difficult decision to close The Warehouse South City store to the public on Sunday 28th August.

The Warehouse South City team has developed strong relationships with their customers & suppliers and have always been focused on providing a high level of service. We admire the strong sense of community spirit and would like to thank the team for their hard work and dedication to The Warehouse. The buying team at TWG will be in contact with you shortly if any fixtures/stands need to be collected. Any remaining stock will be moved to local stores.

Please reach out to your category manager or supplier relations team if you have any queries.
